

Mike Simonson (At-Large Candidate)
2025 Des Moines City Council Candidate Survey

1. Personal Experience & Vision

How often do you personally walk, bike, or ride transit in Des Moines?

Walk daily to activities in the area, including grocery.

Share an experience—whether as a driver, pedestrian, bicyclist, or transit rider—that shaped your views on transportation here.

I appreciate the slower vehicular traffic on key corridors by reducing the number of vehicular lanes.

In one sentence, describe your vision for what Des Moines should look like in 10 years for people who walk, bike, and ride transit.

Major corridors should provide CONSISTENT bike lanes. There are far too many varieties of bike lanes, some causing cyclists to cross vehicular traffic; not good.
